After many years of treating patients with relationship problems, psychologist Alon Gratch has identified seven common patterns of failed love These patterns include, for example, narcissistic love, when a person has so idealized the partner and the relationship that they can't possibly continue to measure up; one way love, when a person loves someone who doesn't return that love; triangular love, when a third party, be it a mother, an affair, or a job is involved in the relationship; and forbidden love, the kind of relationship that is generally off limits, such as when a teacher dates a student In If Love Could Think, Gratch shows us that all of these patterns stem from one fundamental problem—our own ambivalence With his trademark combination of depth and humor, and using many individual stories as engaging examples, Gratch walks us through the ways we get stuck in these patterns In each case we are looking for perfect or ideal love Every pattern creates an obstacle so we don't have to face our own ambivalence about the relationship or the other person But humans aren't perfect, so no matter how wonderful love can be, there is no such thing as pure love Ambivalence implies the existence not only of love but also of anger, disapproval, or disappointment As Dr Gratch shows, there are really only two choices: accept ambivalence as part of any loving relationship, or continue to repeat the patterns of illusory love Happily, using a simple yet powerful three step approach, If Love Could Think helps readers to use their own minds to break these patterns of failed relationships and find real and lasting love From the Hardcover edition

If Love Could Think-Alon Gratch 2005-10-25 A groundbreaking book about why the one thing we all fear—ambivalence—is the one thing we must accept to find lasting love. If Love Could Think is an entertaining and practical book that addresses with warmth and intelligence the age-old question relevant to any stage of a relationship: why does love go wrong, and what can we do to make it right? After many years of treating patients with relationship problems, psychologist Alon Gratch has identified seven common patterns of failed love. These patterns include, for example, narcissistic love, when a person has so idealized the partner and the relationship that they can't possibly continue to measure up; one-way love, when a person loves someone who doesn't return that love; triangular love, when a third party, be it a mother, an affair, or a job is involved in the relationship; and forbidden love, the kind of relationship that is generally off-limits, such as when a teacher dates a student. In If Love Could Think, Gratch shows us that all of these patterns stem from one fundamental problem—our own ambivalence. With his trademark combination of depth and humor, and using many individual stories as engaging examples, Gratch walks us through the ways we get stuck in these patterns. In each case we are looking for perfect or ideal love. Every pattern creates an obstacle so we don't have to face our own ambivalence about the relationship or the other person. But humans aren't perfect, so no matter how wonderful love can be, there is no such thing as pure love. Ambivalence implies the existence not only of love but also of anger, disapproval, or disappointment. As Dr. Gratch shows, there are really only two choices: accept ambivalence as part of any loving relationship, or continue to repeat the patterns of illusory love. Happily, using a simple yet powerful three-step approach, If Love Could Think helps readers to use their own minds to break these patterns of failed relationships and find real and lasting love.

Telling It Like It Is-Bruce Fraizer 2011-01-28 This all took place back in my high school years where my writing would go into my dresser draw. Later in my college years to be inspired by others who read some of my work. Also being inspired by the great Langston Hughes reading his poetry gave me the inspiration to write more with thoughts about life and endless images. Throughout my vision of writing ideas exploded into words and then formed into a poem or story. Writing was always my way of expressing my feelings and thoughts. Furthermore I experienced similar episodes of my own which gave me fruit for thought in my own travels.

Quest for Spiritual Self-Reliance-Digital Edition 2015-04-27 Martin Esten's Quest for Spiritual Self-Reliance focuses on what the author calls "the ongoing movement of meditation." Martin presents probing insights into issues such as meditation, love, relationships, spirituality, and the nature of thought. He shows that, paradoxically, all of our problems in life are created by thinking and identification with what he has termed the little "me." The path to true and enduring freedom is shown to be a counter-intuitive process that can only be understood by setting aside one's analytical mind and ego and by simply being aware of one's self, "you start to see the mechanics of things, and by seeing the mechanics of things, you will become non-mechanical, and to be non-mechanical is to be finally free." This book is meant to be a journey that the reader can take with the writer, and perhaps, along the way, the reader will find out who he or she really is beyond all mechanics of the conditioned mind. Although the journey is not easy, Martin shows us again and again that is in our nature to undertake it.

God So Loved the World-Fr. Robert Spitzer, SJ 2016-03-08 In this volume the brilliant Fr. Spitzer probes in detail the major question that if an intelligent Creator God – manifest in logical proofs, scientific evidence, and near death experiences - who is the source of our desire for the sacred, and the transcendental desires for truth, love, goodness, and beauty, would want to reveal himself to us personally and ultimately. He then shows this is reasonable not only in light of our interior experience of a transcendent Reality, but also that a completely intelligent Reality is completely positive--implying its possession of a completely positive virtue - namely "love", defined as agape. This leads to the question whether God might be unconditionally loving, and if he is, whether he would want to make a personal appearance to us in a perfect act of empathy - face to face. After examining the rational evidence for this, he reviews all world religions to see if there is one that reveals such a God - an unconditionally loving God who would want to be with us in perfect empathy. This leads us to the extraordinary claim of Jesus Christ who taught that God is "Abba", the unconditionally loving Father. Jesus' claims go further, saying that He is also unconditional love, and that his mission is to give us that love through an act of complete self-sacrifice. He also claims to be the exclusive Son of the Father, sent by God to save the world, and the one who possesses divine power and authority. The rest of the book does an in-depth examination of the evidence for Jesus' unconditional love of sinners, his teachings, his miracles, and his rising from the dead. As well as the evidence for Jesus' gift of the Holy Spirit that enabled his disciples to perform miracles in his name, and evidence for the presence of the Holy Spirit today. If this strong evidence convinces us to believe that Jesus is our ultimate meaning and destiny, and desire His saving presence in our lives, that evidence should galvanize the Holy Spirit within us to show that Jesus is Lord and Savior, "the way, the truth, and the life." And our faith in him will transform everything we think about our nature, dignity, and destiny- and how we live, endure suffering, contend with evil, and treat our neighbor.

Crystals I-Antonis Anastasiadis 2016-02-13 The Crystals series will comprise a decalogy which will start from the creation of the universe, will transcend all human civilization, will come to the present and continue into the future, summarily showing the development of human civilization. The first book, '1st Battle of the Titans: Clash between Vacuum and the Hypercosmic (Creation)' marks the beginning of a 'cosmic' journey from the Big Bang, following the evolutionary course of the universe, to reach the creation of planetary systems. The story in the first book starts from a town in the Greek provinces, where an enamoured couple comes upon an object with strange properties and potential. It is put under study by the local scientific community, and old folklore surrounding it is remembered that was hitherto dismissed as myth. The object is taken to Athens and is scrutinized by the Greek scientific community who call all the top brass of the international scientific community to their aid. On the basis of the object's properties that have been assessed, an experiment is carried out on the Acropolis with wondrous, serendipitous findings. After that point, a wonderful journey starts that spans a series of ten books. Through myth and allegory, but also hard scientific facts, and apart from the reader's entertainment, an effort is made for the reader to acquire true knowledge. Thus, through storytelling, the reader learns about the evolution of the universe, the galaxies, the solar systems, the earth and life on it, the evolution of humankind, philosophy, science, religion and in general, about the struggle for the humanization process of humankind to reach today's conflicts. The following 10 books will follow with the following proposed titles: 1st Battle of the Titans: Clash between Vacuum and the Hypercosmic (Creation) 2nd Battle of the Titans: Clash between the Hypercosmic and the Supernatural (Battles of the Heavens) 3rd Battle of the Titans: Clash between the Natural and the Supernatural (Zeus-Cronos) 4th Battle of the Titans: Clash between the Natural and the Paranormal (Battle of Giants) 5th Battle of the Titans: Clash between the Natural and the Metaphysical (Prometheus) 6th Battle of the Titans: Clash between the Good and the Evil (White-Dark Crystal) 7th Battle of the Titans: Clash between the Sociopolitical and the Counter-sociopolitical (Early Civilizations) 8th Battle of the Titans: Clash between Humanism and Technocracy (Later Periods) 9th Battle of the Titans: Clash between Civilization and Barbarism (Current Times) 10th Battle of the Titans: Clash between Earthlings and Extraterrestrials (Intergalactic Travel)

Women Food and God-Geneen Roth 2011-09-29 Millions of us are locked into an unwinnable weight game, as our self-worth is shredded with every diet failure. Combine the utter inefficacy of dieting with the lack of spiritual nourishment and we have generations of mad, ravenous self-loathing women. So says Geneen Roth, in her life-changing new book, *Women, Food and God*. Since her 1991 bestseller, *When Food Is Love*, was published, Roth has taken the sum total of her experience and combined it with spirituality and psychology to explain women's true hunger. Roth's approach to eating is that it is the same as any addiction - an activity to avoid feeling emotions. From the first page, readers will be struck by the author's intelligence, humour and sensitivity, as she traces the path of overeating from its subtle beginnings through to its logical end. Whether the drug is booze or brownies, the problem is the same: opting out of life. She powerfully urges readers to pay attention to what they truly need - which cannot be found in a supermarket. She provides seven basic guidelines for eating (the most important is to never diet) and shares reassuring, practical advice that has helped thousands of women who have attended her highly successful seminars. Truly a thinking woman's guide to eating - and an anti-diet book - women everywhere will find insights and revelations on every page.

Building Love That Lasts-Clinton Callahan 2019-09-15 "Clinton Callahan is an original thinker." - Marilyn Ferguson, author, *The Aquarian Conspiracy* and *Aquarius Now*, and former editor *Brain-Mind Bulletin*. "For modern seekers, responding to the call for initiation into relationship, here is an open invitation." MALIDOMA SOME, AUTHOR "OF WATER AND THE SPIRIT" It's one of those rare books that will definitely wake you up. I consider it must reading for anyone seriously interested in the path of conscious relationship." -- John Welwood, author of *Journey of the Heart* and *Perfect Love, Imperfect Relationships* This hard-hitting and innovative book about partnered relationship immediately challenges the deceptions about love and intimacy rampant in today's patriarchal culture. At the same time, *Building Love That Lasts* reveals a step-by-step process for discovering and living out alternative possibilities. The author claims that even the best of our relationships are still generally basic level; what he calls "Ordinary Human Relationship." He asserts that two more domains remain to be explored: namely, Extraordinary Human Relationship and Archetypal Love. The book describes exactly how to enter these new domains, and how to stay there long enough to cultivate genuine intimacy, nurturance, excitement and satisfaction together. The material for this book is startlingly original and fresh, directly distilled from over thirty years of trial, error and reevaluation within seminars and trainings conducted by the author in the U.S. and Europe. The essential teaching tools are "Thought-Maps" that illustrate and guide the dynamics of evolving relationship, coupled with a series of experiments/"explorations" to be undertaken alone or with one's partner. Topics include: Making the leap from Defensive Learning to Expansive Learning. Breaking out of the relationship "Box." The lie of being unlovable. Navigating in the realm of feelings. Communication skills for "explorers."

The Secret of Inner Presence-Lin Lipetz 2012-04-09 The Secret of Inner Presence begins with author Lin Lipetz's story of her spontaneous spiritual awakening in 1986. This amazing and unexpected event created an immediate awareness of a loving Inner Presence within her heart and a connection to another higher level of peace, contentment, and greater knowledge. She now knows that Inner Presence waits patiently to manifest within each person, and much of *The Secret of Inner Presence* is about providing the keys to bring about that shift in consciousness. As each of the eleven keys is practiced and experienced, the transformation toward a more complete understanding of the core-self will gradually evolve through the loving guidance of the conscious Universe. One of the eleven keys opens the way to intuitively listen to the many voices that will assist in this transformation through healing, new insights, dreams, problem solving, and caring advice. Another key opens the way to deepen intuitively to the level of receiving messages from the Universe and possibly finding the guides that have been available since birth. This process is called Stream of Consciousness writing, and the powerful dialogues and inspirational poems the author has received in this way for many years are found in each chapter. Chapter by chapter, each of the eleven keys is presented, by both the spiritual Universe and the author, to help guide the reader to a higher dimension of the self.

When the Bough Breaks-Connie Monk 2022-04-25 War is coming, but can she weather the storm? It is the summer of 1939, and Kathie and Dennis Hawthorne are utterly content. They run a thriving market garden called Westways, and their lives are just as they always imagined. But when war arrives, Dennis, a member of the TA, is called up immediately, leaving Kathie to engage helpers and run the garden. As Kathie's narrow existence widens, her confidence grows, but with Dennis far away and his safety under threat, her world begins to fall apart. She is stirred by previously unknown emotions that bring her to despair. She must lean on her new friendships and the community that has blossomed around the garden to find the strength to overcome her own struggles, and to ensure Westways blooms. A charming and uplifting wartime saga for fans of Rosie Clarke and Kate Thompson.
