[Books] Sex Trafficking: Inside The Business Of Modern Slavery

Every year, hundreds of thousands of women and children are abducted, deceived, seduced, or sold into forced prostitution, coerced to service hundreds if not thousands of men before being discarded. These trafficked sex slaves form the backbone of one of the world's most profitable illicit enterprises and generate huge profits for their exploiters, for unlike narcotics, which must be grown, harvested, refined, and packaged, sex slaves require no such "processing," and can be repeatedly "consumed." Kara first encountered the horrors of slavery in a Bosnian refugee camp in 1995. Subsequently, in the first journey of its kind, he traveled across four continents to investigate these crimes and take stock of their devastating human toll. Kara made several trips to India, Nepal, Burma, Thailand, Laos, Vietnam, the United Kingdom, Italy, the Netherlands, Denmark, Albania, Moldova, Mexico, and the United States. He witnessed firsthand the sale of human beings into slavery, interviewed over four hundred slaves, and confronted some of those who trafficked and exploited them. In this book, Kara provides a riveting account of his journey into this unconscionable industry, sharing the moving stories of its victims and revealing the shocking conditions of their exploitation. He draws on his background in finance, economics, and law to provide the first ever business analysis of contemporary slavery worldwide, focusing on its most profitable and barbaric form: sex trafficking. Kara describes the local factors and global economic forces that gave rise to this and other forms of modern slavery over the past two decades and quantifies, for the first time, the size, growth, and profitability of each industry. Finally, he identifies the sectors of the sex trafficking industry that would be hardest hit by specifically designed interventions and recommends the specific legal, tactical, and policy measures that would target these vulnerable sectors and help to abolish this form of slavery, once and for all. The author will donate a portion of the proceeds of this book to the anti slavery organization, Free the Slaves.

Human Trafficking-Louise Shelley 2010-07-29 This book examines all forms of human trafficking globally, revealing the operations of the trafficking business and the nature of the traffickers themselves. Using a historical and comparative perspective, it demonstrates that there is more than one business model of human trafficking and that there are enormous variations in human trafficking in different regions of the world. Drawing on a wide body of academic research - actual prosecuted cases, diverse reports and field work and interviews conducted by the author over the last sixteen years in Asia, Latin America, Africa, Europe and the former socialist countries - Louise Shelley concludes that human trafficking will grow in the twenty-first century as a result of economic and demographic inequalities in the world, the rise of conflicts and possibly global climate change. Coordinated efforts of government, civil society, the business community, multilateral organizations and the media are needed to stem its growth.

Human Trafficking in Conflict-Julia Muraszkwicz 2020-07-02 This edited book examines the different forms of human trafficking that manifest in conflict and post-conflict settings and considers how the military may help to address or even facilitate it. It explores how conflict can facilitate human trafficking, how it can manifest through a variety of case studies, followed by a discussion of the reasons why the military should include a stronger consideration of human trafficking within their strategic planning given the multiple scenarios in which military forces come into contact with victims of human trafficking, and how this ought to be done. Human Trafficking in Conflict draws on the expertise of scholars and practitioners to develop the existing conversations and to offer multiple perspectives. It includes a discussion of existing frameworks and perspectives including legal and policy, and whether they are configured to address human trafficking in conflict.

Human Trafficking in the Era of Global Migration-Hupp Williamson, Sarah 2022-05-31 Factors such as inequality, gender, globalization, corruption, and instability clearly matter in human trafficking. But does corruption work the same way in Cambodia as it does in Bolivia? Does instability need to be present alongside inequality to lead to human trafficking? How do issues of migration connect? Using migration, feminist, and criminological theory, this book asks how global economic policies contribute to the conditions which both drive migration and allow human trafficking to flourish, with specific focus on Cambodia, Bolivia, and The Gambia. Challenging existing thinking, the book concludes with an anti-trafficking framework which addresses the root causes of human trafficking.

Modern Slavery-Siddharth Kara 2017-10-10 Siddharth Kara is a tireless chronicler of the human cost of slavery around the world. He has documented the dark realities of modern slavery in order to reveal the degrading and dehumanizing systems that strip people of their

dignity for the sake of profit—and to link the suffering of the enslaved to the day-to-day lives of consumers in the West. In Modern Slavery, Kara draws on his many years of expertise to demonstrate the astonishing scope of slavery and offer a concrete path toward its abolition. From labor trafficking in the U.S. agricultural sector to sex trafficking in Nigeria to debt bondage in the Southeast Asian construction sector to forced labor in the Thai seafood industry, Kara depicts the myriad faces and forms of slavery, providing a comprehensive grounding in the realities of modern-day servitude. Drawing on sixteen years of field research in more than fifty countries around the globe—including revelatory interviews with both the enslaved and their oppressors—Kara sets out the key manifestations of modern slavery and how it is embedded in global supply chains. Slavery offers immense profits at minimal risk through the exploitation of vulnerable subclasses whose brutalization is tacitly accepted by the current global economic order. Kara has developed a business and economic analysis of slavery based on metrics and data that attest to the enormous scale and functioning of these systems of exploitation. Beyond this data-driven approach, Modern Slavery unflinchingly portrays the torments endured by the powerless. This searing exposé documents one of humanity's greatest wrongs and lays out the framework for a comprehensive plan to eradicate it.

Human Trafficking in Asia-Sallie Yea 2014-01-03 By analysing the complex issues surrounding internal and cross-border human trafficking in Asia, and asserting critical perspectives and methodologies, this book extends the range of sites for discussion and sectors in which human trafficking takes place. The book re-centres human trafficking as an area of legitimate academic inquiry in a region that is often considered as an epicentre for human trafficking: East and Southeast Asia. It thus offers an in-depth analysis and up-to-date knowledge on research methodologies and engagements, patterns and forms of human trafficking, constructively critiquing anti-trafficking campaigns and discourses, and offering examples of good practice within the region that help us move beyond the impasse that currently hampers human trafficking as a field of inquiry in the social sciences. Providing constructive avenues for human trafficking research to proceed methodologically, theoretically and ethically, this book is of interest to students and scholars of Politics, International Relations and Southeast Asian Studies.

Combating Human Trafficking-Michael J. Palmiotto 2014-12-01 A centuries-old crime, human trafficking occurs not only in undeveloped countries, but also in some surprising locations. Bonded Labor-Siddharth Kara 2014-05-06 Siddharth Kara's Sex Trafficking has become a critical resource for its revelations into an unconscionable business, and its detailed analysis of the trade's immense economic benefits and human cost. This volume is Kara's second, explosive study of slavery, this time focusing on the deeply entrenched and wholly unjust system of bonded labor. Drawing on eleven years of research in India, Nepal, Bangladesh, and Pakistan, Kara delves into an ancient and ever-evolving mode of slavery that ensnares roughly six out of every ten slaves in the world and generates profits that exceeded \$17.6 billion in 2011. In addition to providing a thorough economic, historical, and legal overview of bonded labor, Kara travels to the far reaches of South Asia, from cyclone-wracked southwestern Bangladesh to the Thar desert on the India-Pakistan border, to uncover the brutish realities of such industries as hand-woven-carpet making, tea and rice farming, construction, brick manufacture, and frozen-shrimp production. He describes the violent enslavement of millions of impoverished men, women, and children who toil in the production of numerous products at minimal cost to the global market. He also follows supply chains directly to Western consumers, vividly connecting regional bonded labor practices to the appetites of the world. Kara's pioneering analysis encompasses human trafficking, child labor, and global security, and he concludes with specific initiatives to eliminate the system of bonded labor from South Asia once and for all.

Handbook of Sex Trafficking-Lenore Walker 2018-12-24 This definitive reference assembles the current knowledge base on the scope and phenomena of sex trafficking as well as best practices for treatment of its survivors. A global feminist framework reflects a profound understanding of the entrenched social inequities and ongoing world events that fuel trafficking, including in its lesser-known forms. These powerful dispatches also challenge readers to consider complex questions found at the intersections of gender, race, socioeconomic status, and politics. A sampling of topics in the Handbook: · An organizational systems view of sex trafficking. · Vulnerability factors when women and girls are trafficked. · Men, boys, and LGBTQ: invisible victims of human trafficking. · Organized crime, gangs, and trafficking. · Human trafficking prevention efforts for kids (NEST). · Treating victims of human trafficking: core therapeutic tasks. · From Trafficked to Safe House (C-SAFE). Transnational Policing and Sex Trafficking in Southeast Europe-Georgios Papanicolaou 2011-05-03 Mounting a vigorous critique on existing approaches to transnational policing, this book lays out an argument situating transnational policing within contemporary transformations of the capitalist state and imperialism, looking at the particular case of regional police cooperation against sex trafficking in Southeast Europe.

Human Trafficking and Exploitation-Belachew Gebrewold 2017-09-22 Human trafficking is a serious human rights violation that leads to the gross exploitation of its victims, who are coerced into forced labor and slavery across the globe. As the current migration movement and refugee situation reaches crisis point in Europe, the risk of human trafficking from the Mediterranean Sea through Italy into Central and Western Europe has become a critical emergency. Focusing on human trafficking along this route into Europe, this book discusses the systematic exploitation of victims and the subsequent violation of human rights within an international context, providing an overview of the causes, regulation and prevention of the issue. Academic researchers, practitioners and policy-makers are brought together to provide both theoretical perspectives and practice-based approaches for addressing the issue of human trafficking. As well as scholarly contributions from experts in the field, the book also includes experiences and strategies of policy-makers and practitioners from governmental and non-governmental organizations, along with the real-life scenarios and practice reports. Human Trafficking and Exploitation should be considered essential reading for academics, policy-makers, advocates and activists interested in preventing human trafficking and protecting human rights. It will also be of interest to those with research interests within the broader themes of law, politics and international relations and social and health policy.

Ethical Concerns in Research on Human Trafficking-Dina Siegel 2015-12-08 This book presents a vivid description of the solutions that researchers have discovered for ethical dilemmas that pose themselves at studying disadvantaged, vulnerable and victimized populations. Ethical codes prescribe that the scholar should in all circumstances avoid potential harm, that informed consent is necessary and that the limits of confidentiality should always be respected. However, in the practice of research among women involved in prostitution, illegal immigrant workers, enslaved children, people who sell their organs and all the traffickers thereof, the ethical rules cannot always be followed. This book shows that there is a surprising variety of arguable possibilities in dealing with ethical dilemmas in the field. Authors reflect on concrete experiences from their own fieldwork in a wide variety of settings such as the USA, Singapore, Kosovo and The Netherlands. Some choose to work on the basis of conscientious partiality, others negotiate the rules with their informants and still others purposely break the rules in order to disclose and damage the exploiters. Researchers may find themselves in a vulnerable position. Their experiences, as presented in this volume, will help field workers, university administrators, representatives of vulnerable groups, philosophers of ethics and most of all students to go into the field well-prepared. This is a book that every researcher planning to do fieldwork in the difficult field of hidden, illicit and victimized people should read in advance. Dr. Frank Bovenkerk, Professor (Emeritus), Willem Pompe Institute for Criminal Law and Criminology, Universiteit Utrecht, The Netherlands This book allows a peek in the kitchen of empirical fieldwork, going into not only “best practices,” but mistakes made, in a frank, courageous and honest way. Representations of Transnational Human Trafficking-Christiana Gregoriou 2018-06-29 This open access edited collection examines representations of human trafficking in media ranging from British and Serbian newspapers, British and Scandinavian crime novels, and a documentary series, and questions the extent to which these portrayals reflect the realities of trafficking. It tackles the problematic tendency to under-report particular types of victim and forms of trafficking, and seeks to explore both dominant and marginalised points of view. The authors take a cross-disciplinary approach, utilising analytical tools from across the humanities and social sciences, including linguistics, literary and media studies, and cultural criminology. It will appeal to students, academics and policy-makers with an interest in human trafficking and its depiction in the modern day.

108-1 Hearing: Global Trends in Trafficking and The "Trafficking in Persons Report", June 25, 2003, * - 2004

Global Human Trafficking-Molly Dragiewicz 2014-12-05 Human trafficking has moved from relative obscurity to a major area of research, policy and teaching over the past ten years. Research has sprung from criminology, public policy, women’s and gender studies, sociology, anthropology, and law, but has been somewhat hindered by the failure of scholars to engage beyond their own disciplines and favoured methodologies. Recent research has begun to improve efforts to understand the causes of the problem, the experiences of victims, policy efforts, and their consequences in specific cultural and historical contexts. Global Human Trafficking: Critical issues and contexts foregrounds recent empirical work on human trafficking from an interdisciplinary, critical perspective. The collection includes classroom-friendly features, such as introductory chapters that provide essential background for understanding the trafficking literature, textboxes explaining key concepts, discussion questions for each chapter, and lists of additional resources, including films, websites, and additional readings for each chapter. The authors include both eminent and emerging scholars from around the world, drawn from law, anthropology, criminology, sociology, cultural studies, and political science and the book will be useful for undergraduate and graduate courses in these areas, as well as for scholars interested in trafficking.

Sex Trafficking-Tsachi Keren-Paz 2013-06-07 Sex Trafficking: A Private Law Response examines existing and potential causes of action against sex traffickers, clients and the state and argues for fair and effective private law remedies. Combining a theoretical inquiry about

the borders of liability in torts and restitution with a political commitment to protecting the interests of victims of sex trafficking, this book offers a comparative doctrinal and socio-legal analysis of private law remedies, their justification, and their effectiveness. Tsachi Keren-Paz innovatively and convincingly makes the argument that all those directly involved in breaching the rights of victims of sex trafficking should compensate them for their losses, and make restitution of the profits made at their expense. Sex Trafficking: A Private Law Response will be invaluable to both academics and practitioners concerned with prostitution, modern slavery and trafficking, and those interested in private law theory and practice.

Trafficked Children and Youth in the United States-Elzbieta M. Gozdzia 2016-05-10 Trafficked children are portrayed by the media—and even by child welfare specialists—as hapless victims who are forced to migrate from a poor country to the United States, where they serve as sex slaves. But as Elzbieta M. Gozdzia reveals in Trafficked Children in the United States, the picture is far more complex. Basing her observations on research with 140 children, most of them girls, from countries all over the globe, Gozdzia debunks many myths and uncovers the realities of the captivity, rescue, and rehabilitation of trafficked children. She shows, for instance, that none of the girls and boys portrayed in this book were kidnapped or physically forced to accompany their traffickers. In many instances, parents, or smugglers paid by family members, brought the girls to the U.S. Without exception, the girls and boys in this study believed they were coming to the States to find employment and in some cases educational opportunities. Following them from the time they were trafficked to their years as young adults, Gozdzia gives the children a voice so they can offer their own perspective on rebuilding their lives—getting jobs, learning English, developing friendships, and finding love. Gozdzia looks too at how the children’s perspectives compare to the ideas of child welfare programs, noting that the children focus on survival techniques while the institutions focus, not helpfully, on vulnerability and pathology. Gozdzia concludes that the services provided by institutions are in effect a one-size-fits-all, trauma-based model, one that ignores the diversity of experience among trafficked children. Breaking new ground, Trafficked Children in the United States offers a fresh take on what matters most to these young people as they rebuild their lives in America.

The Politics of Sex Trafficking-E. O'Brien 2013-09-06 This book offers a unique insight into the moral politics behind human trafficking policy in Australia and the USA, including rare interviews with key political actors, and a critical account of Congressional and Parliamentary hearings.

Ending Human Trafficking-Shayne Moore 2022-04-05 Human trafficking is one of the most pressing social justice issues of our time. Though renewed interest in this issue among Christians is a wonderful thing, misinformed and misguided efforts can do more harm than good. Written by seasoned leaders and grounded in theology and up-to-date data, this accessible and compelling handbook will educate churches and organizations for truly effective work.

Human Trafficking-Natividad Gutiérrez Chong 2017-09-13 In the post-Cold War era, economic globalization has resulted in the buying and selling of human beings. Poverty, social instability, lawlessness, gender biases, and ethnic hostility have entrapped millions in the world of modern day slavery, with the result that human trafficking is one of the fastest growing criminal industries in the world. Every year, men, women, and children from across the globe are transported within or across borders for the purpose of forced labor and sexual exploitation. Despite the plethora of journalistic articles written on human trafficking there is a need for more rigorous academic analysis of the phenomenon. Although groups from many different ideologies have embraced policies to end human trafficking, there are still many gaps and unanswered questions, particularly with regard to the amount of, and nature of the phenomenon. This book provides an insight into the complexity of human trafficking by addressing both how the scope of globalization impacts the sex industry and forced labor, and how vulnerability is a growing cause of human trafficking, affecting traditional diasporic and migratory patterns. This book was originally published as a special issue of the Journal of Intercultural Studies.

Human Trafficking Under International and Tanzanian Law-Nicksoni Filbert Kahimba 2021 This book deals with the problem of human trafficking in Tanzania in the light of international law and considers human trafficking as both a criminal offence in Tanzania and a human rights violation within international law in general. The book broadens the reader's understanding of the subject of human trafficking and Tanzania's legal approach to the issue and allows the reader to grasp Tanzania's anti-trafficking piecemeal efforts from the 1970s onwards, the reasons that made Tanzania ratify the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, supplementing the United Nations Convention against Transnational Organized Crime, and Tanzania's National Assembly's deliberations regarding the enactment of the Anti-Trafficking in Persons Act of 2008 and the impact those deliberations have had on the current legal framework of Tanzania. It provides a firsthand critical analysis of the Tanzania anti-trafficking law, pointing out its strengths, weaknesses and areas for improvement in a comprehensive manner such as has never been attempted before. The book shares many tips and even insights on how to read and apply Tanzania's 2015 Anti-Trafficking Regulations in relation to the main law harmoniously. It also offers complete instructions for common-law practitioners, court personnel, researchers and other anti-trafficking personnel on how to investigate and prosecute human trafficking, prevent trafficking, both lawfully and from occurring, as well as assist victims of human trafficking and protect their human rights. Nicksoni Filbert Kahimba is a doctoral researcher in the Faculty of Law of the Humboldt Universität zu Berlin in Berlin, Germany.

Estimating the Prevalence of Human Trafficking in the United States: Considerations and Complexities-National Academies of Sciences, Engineering, and Medicine 2020-03-27 Human trafficking has many names and can take many forms - pimp control, commercial sex, exploitation, forced labor, modern slavery, child labor, and several others - and the definitions vary greatly across countries and cultures, as well as among researchers. In the United States, the Trafficking Victims Protection Act (TVPA) is the cornerstone of counter-trafficking efforts. It provides guidance for identifying and defining human trafficking, and it authorizes legislation and appropriations for subsequent counter-trafficking measures both within and outside of the federal government. First enacted in 2000, the TVPA has since been reauthorized by three administrations, and it includes a directive for the President to establish an Interagency Task Force to Monitor and Combat Trafficking. The subsequent Frederick Douglass Trafficking Victims Prevention and Protection Reauthorization Act of 2018 also includes provisions for victim services and plans to enhance collaboration efforts to fight

trafficking abroad. To explore current and innovative sampling methods, technological approaches, and analytical strategies for estimating the prevalence of sex and labor trafficking in vulnerable populations, a 2-day public workshop, Approaches to Estimating the Prevalence of Human Trafficking in the United States, was held in Washington, D.C. in April 2019. The workshop brought together statisticians, survey methodologists, researchers, public health practitioners, and other experts who work closely with human trafficking data or with the survivors of trafficking. Participants addressed the current state of research on human trafficking, advancements in data collection, and gaps in the data. They discussed international practices and global trends in human trafficking prevalence estimation and considered ways in which collaborations across agencies and among the U.S. government and private-sector organizations have advanced counter-trafficking efforts. This proceedings summarizes the presentations and discussions of the workshop.

Human Trafficking in Ohio-Jeremy M. Wilson 2007 These identified several cases of juvenile sex trafficking and forced prostitution in Toledo, as well as a smaller trafficking market centered on the forced labor of noncitizens in Columbus. Wilson and Dalton compare the two cities' considerably different responses to human trafficking, and conclude with suggestions on how to raise awareness about human trafficking and improve the responses of the criminal justice system, the juvenile justice system, and social services to the problem."--BOOK JACKET.

Sex Panic Rhetorics, Queer Interventions-Ian Barnard 2020 "This work makes the counter-intuitive argument that contemporary "sex panics" in a variety of political and social arenas are symptoms of queerphobia, even when the panic in question presents itself as being about something else (e.g., sex trafficking, incest, child abuse), and, moreover, that liberal values and ideologies collude in creating and perpetuating these queerphobic panics. In the case studies that populate the book's six body chapters (child molester panics, sex trafficking panics, incest panics, transgender panics, queer kids, pedagogy panics), Ian Barnard is concerned not so much with looking at the overt homophobia and transphobia that are the more obvious objects of anti-homophobic and anti-transphobic analysis as in excavating their significant traces in a neo-liberal culture that has supposedly demonstrated its civility by its embrace of diversity, renunciation of its homophobic past, and attentiveness to the transgender revolution that is sweeping popular, media, and political culture in the US and elsewhere"--

Human Trafficking-John Winterdyk 2011-12-05 Human trafficking is a crime that undermines fundamental human rights and a broader sense of global order. It is an atrocity that transcends borders with some regions known as exporters of trafficking victims and others recognized as destination countries. Edited by three global experts and composed of the work of an esteemed panel of contributors,

Sex Trafficking and the Media-Meghan Sobel 2018-02-15 This book explores how sex trafficking has been reported in the media. The book is set in the context of reportage of this human rights abuse in two varying political landscapes - the United States being a developed democracy and Thailand experiencing continued political turmoil including a May 2014 coup d'état and an accompanying crackdown on free expression by the ruling military junta. In doing so, the book shows how there are great similarities between the two countries in the way the issue is misrepresented. Drawing on content analysis of news coverage in the United States and Thailand as well as interviews with journalists, anti-trafficking advocates, survivors of sex trafficking and consensual sex workers, this book illuminates reasons why coverage is framed in the way(s) that it is, how anti-trafficking advocates can act as media advocates to push coverage in new directions, and how journalistic functions are similar and different in the two countries.

Human Trafficking Finances-Georgios A. Antonopoulos 2019-04-13 This unique volume addresses the financial mechanisms that enable human trafficking - its actors, structures, and logistics. Viewing each stage of the market, human traffickers may need significant financial resources for recruitment, transportation, and exploitation. Drawing upon cross-disciplinary research expertise in criminology, sociology, law and economics, this book offers insights from law enforcement officers, policy makers, NGOs, and traffickers and their victims. Using three European countries - Bulgaria, Italy and the United Kingdom - it provides an account on the sources of capital for initiating and sustaining a human trafficking scheme, discussing the involvement of criminal structures, legitimate businesses, financial institutions, and information and communication technologies in the running of these enterprises. It also addresses the ways in which entrepreneurs and customers settle payments, the costs of conducting business in human trafficking, and how profits from the business are spent and invested. This important contribution to the transnational organized crime knowledge base will be of interest to researchers and academics, as well as law enforcement, regulatory agencies, and policy makers combating human trafficking.

Human Trafficking in Thailand-Siroj Sorajjakool 2013-10-15 Few subjects elicit greater moral outrage than human trafficking. Media reports of dehumanizing practices such as slavery, abduction, child prostitution, and torture, along with shocking statistics, form the basis of public knowledge. Those who work closely with victims acknowledge the complexity of the issue, and it is this complexity, rather than loose statistics and conjecture, that deserves our attention. With sensitivity and candor, this book addresses the reality of human trafficking in Thailand, dissecting studies, presenting facts, and dismissing stereotypes. It focuses on the areas of fishing, agriculture, domestic work, sex work, and the trafficking of children, weaving individual narratives and official studies into the wider history of Thailand's changing economy and labor situation. It also details how the Thai government has addressed the issue, reflects on the roots of human exploitation, and suggests a way forward. This book raises much-needed awareness of commonly held misconceptions and clarifies what we know and what we have yet to discover about the trafficking of persons to and from Thailand. Highlights

- Concise and accessible study of the reality of human trafficking in Thailand
- Thorough critical analysis of current policies and public discourse on trafficking
- Details relevant Thai and international laws
- Discusses the relationship between the modern economic system and exploitation
- Analyzes the changing face of the Thai labor market and the impact of industrialization on the Thai population

Sex, Slavery and the Trafficked Woman-Ramona Vijayarasa 2016-03-03 Sex, Slavery and the Trafficked Woman is a go-to text for readers who seek a comprehensive overview of the meaning of 'human trafficking' and current debates and perspectives on the issue. It presents a more nuanced understanding of human trafficking and its victims by examining - and challenging - the conventional assumptions that sit at the heart of mainstream approaches to the topic. A pioneering study, the arguments made in this book are largely drawn from the author's fieldwork in Ukraine, Vietnam and Ghana. The author demonstrates to readers how a law enforcement and criminal justice-oriented approach to trafficking has developed at the expense of a migration and human rights perspective. She highlights the importance of viewing trafficking within a broad spectrum of migratory movement. The author contests the coerced, female victim archetype as stereotypical and challenges the reader to understand trafficking in an alternative manner, introducing the counterintuitive concept of the 'voluntary victim'. Overall, this text provides readers of migration and development, gender studies, women's rights and international law a comprehensive and multidisciplinary analysis of the concept of trafficking.
