Murder's Out of Tune-Jeffrey Miller 2005 As literate as it is funny, Maclean's magazine raved about Murder at Osgoode Hall, Jeffrey Miller's first novel featuring Amicus the courthouse cat. In Murder's Out of Tune, Amicus returns, applying his acerbic wit to the case of ageing lion Des Cheshire, a cat who really swings. For 25 years, Cheshire has been the star sax player in the Billy Wonder Quartet. But he still plays second fiddle -- hey diddle diddle -- to pianist and leader Billy Wonder. Cheshire's iron-clad contract with Wonder prevents Des from working with any other band, and it forces him to sign over most of his music publishing royalties. So when Wonder turns up very publicly dead, Cheshire is the main suspect. Which makes him the newest legal challenge for Amicus, Q.C. (Questing Cat), and his companion human, appeal judge Ted Mariner. Mind you, cat and man have problems of their own to solve. To begin with, the judge's wife, Penny, has evicted them both from the matrimonial home, suspecting the judge of more than professional relations with his comely new law clerk. And as a couple of "strays" about town, man and cat experience several hair-raising encounters with members of the opposite sex, as well as with their professional rivals. Yet again, Amicus narrates a tale that is at once literate, funny, moody, and downright jazzy.

Murder 101-Robert L. Snow 2005 Offers a lively "course" in the investigation of murder, from the crime scene through the trial, stopping along the way to examine the body, the evidence, the witnesses, the suspects, and the aftermath of this most heinous crime.

Driscoll, a man haunted by the events of an unstable childhood himself, must put aside any sympathy he may have for Tilden and put a stop to his murderous rampage. Teamed up with Sgt. Mystery Women, Volume Three (Revised)-Colleen Barnett 2010-12-31 Like other fictional characters, female sleuths may live in the past or the future. They may represent current times with some level of reality or shape their settings to suit an agenda. There are audiences for both realism and escapism in the mystery novel. It is interesting, however, to compare the fictional world of the mystery sleuth with the world in which readers live. Of course, mystery readers do not share one simplistic world. They live in urban, suburban, and rural areas, as do the female heroines in the books they read. They may choose a book because it has a familiar background or because it takes them to places they long to visit. Readers may be rich or poor; young or old; conservative or liberal. So are the heroines. What incredible choices there are today in mystery series! This three-volume encyclopedia of women characters in the mystery novel is like a gigantic menu. Like a menu, the descriptions of the items that are provided are subjective. Volume 3 of Mystery Women as currently updated adds an additional 42 sleuths to the 500 plus who were covered in the initial Volume 3. These are more recently discovered sleuths who were introduced during the period from January 1, 1990 to December 31, 1999. This more than doubles the number of sleuths introduced in the 1980s (298 of whom were covered in Volume 2) and easily exceeded the 347 series (and some outstanding individuals) described in Volume 1, which covered a 130-year period from 1860-1979. It also includes updates on those individuals covered in the first edition; changes in status, short reviews of books published since the first edition through December 31, 2008.

British Women Writers and the Asiatic Society of Bengal, 1785-1835-Kathryn S. Freeman 2016-04-15 In her study of newly recovered works by British women, Kathryn Freeman traces the literary relationship between women writers and the Asiatic Society of Bengal, otherwise known as the Orientalists. Distinct from their male counterparts of the Romantic period, who tended to mirror the Orientalist distortions of India, women writers like Phebe Gibbes, Elizabeth Hamilton, Sydney Owenson, Mariana Starke, Eliza Fay, Anna Jones, and Maria Jane Jewsbury interrogated these distortions from the foundation of gender. Freeman takes a three-pronged approach, arguing first that in spite of their marked differences, female authors shared a common resistance to the Orientalists' intellectual genealogy that allowed them to represent Vedic non-dualism as an alternative subjectivity to the masculine model of European materialist philosophy. She also examines the relationship between gender and epistemology, showing that women's texts not only shift authority to a feminized subjectivity, but also challenge the recurring Orientalist denigration of Hindu masculinity as effeminate. Finally, Freeman contrasts the shared concern about miscegenation between Orientalists and women writers, contending that the first group betrays anxiety about intermarriage between East Indian Company men and indigenous women while the varying portrayals of intermarriage by women show them poised to dissolve the racial and social boundaries. Her study invites us to rethink the Romantic paradigm of canonical writers as replicators of Orientalists' cultural imperialism in favor of a more complicated stance that accommodates the differences between male and female authors with respect to India.
